

Bordentown Ski Club Meeting Minutes
November, 2008

Four new members attended their first meeting and two potential members came to check us out before deciding by the end of the meeting that they would like to join. That brings total membership to date up to 44 - enough for a bus load to somewhere!

The first matter on the agenda was the formal adoption of the club by-laws, which we apparently already did last month. They are now posted on the club website.

We discussed the new business cards that were ordered but, unfortunately, did not arrive in time for the meeting. They will be available at the next meeting. Members will be encouraged to pass them around to help boost membership.

We are continuing to collect questionnaires in an effort to see what our members are looking for in the club. I will be tabulating them as soon as I can and will post the results post haste.

Club cards were distributed and members advised to trim the corners as they were sheet cut and the edges are a little sharp. Anyone needing their cards before the next meeting should email the club to make arrangements for pick-up.

Saturdays club event, Midnight Bowling (at 8pm) at Papp's was discussed and it was agreed a separate email will be sent out to see who may be interested in attending. Watch your inbox for that email today and please respond asap.

With ski/snowboard season just around the corner, it was really great to see the level of enthusiasm return to the club meeting with lots of banter and ideas for trips being tossed around. A couple members have agreed to plan small trips for January and February just to get the ball rolling. If anyone else is interested in planning a day or weekend trip, please let us know.

The trips are being planned by taking into consideration the trends and wishes expressed on the questionnaires. If anyone would like to fill out a questionnaire and has not yet done so, shoot us an email and we can email it out to you to be included in the tabulations in the next few days.

Members are being encouraged to utilize the blog area of the website as well as the group email to communicate with other members about specials, deals, carpooling, etc. We all agreed this year is a prime opportunity to take advantage of the deals out there given the sluggish economy.

We will also be posting the club stats as we have had several inquiries regarding the make-up of the club members.

Thanks to all in attendance and we'll see you all soon.....
